[Note: CMICS is working to address known data gap due to eMD data integration. Resolution will be in place by September 2024.]

Highlighted Improvement Tactics:

- **Standardization of Vaccination Administration within Practice** (i.e. what products administered at each standard well visit up to 2 years old)
- **Perform outreach to patients** included on age 2 immunization worklists that include Blue KC patients 16 to 24 months in need of 1 or more catch up vaccines before 2nd birthday.
[Lists shared with CMHN Committee Attendees]
- Integrate a **New Age 2 Immunization Catch Up Pre-Visit Planning Report** into Clinical Workflow
