### Top Recommendations & Tactics to Inform Quality Improvement in 2022

#### [Chlamydia Screening Pre-Visit Planning Report](#)

- **Report Objective:** Supports pre-visit planning for chlamydia screening for all 'sexually active' female patients with scheduled appointments over next 10 days.
  - Patients only included if they have not had a chlamydia screening in previous 12 months
  - Aligns with Innovaccer Recommended Care

**Use Case Example:** CMH Primary Care currently uses this pre-visit planning report and has seen an increase in their Chlamydia Screening rates. They have designated staff who alert providers each week with a scripted message in Cerner notifying them their patient is due for a Chlamydia Screening.

#### [Follow-Up Care for Children Prescribed ADHD Medication HEDIS Measure FAQ](#)

- [Click here](#) to review this resource to better understand the ADHD measure, responses to commonly asked questions, and key quality improvement strategies.
- ADHD medication list includes both stimulant and non-stimulant ADHD medications.  
Use the FAQ to view the complete list of ADHD medications.

Please share this  
valuable resource with  
your entire care team!

## Innovaccer Insights - Call to action!

### 1 Ask Providers, Nurses, and Admin Staff If They Need an Innovaccer Account Set Up and/or Password Reset

Use this [Innovaccer Insights flyer](#) to support your efforts.

Send Names to PHM Network Rep to Schedule Trainings & Create Innovaccer Accounts

### 2 Act as an Innovaccer Champion and Communicate the Value of InNote

#### What is InNote?

- Innovaccer's point of care application that presents **relevant and actionable patient information** as you navigate your EMR.
- InNote brings in **claims data** from health insurance companies and connects with **40+ community practice EMRs**, so you are able to see care that happened at other hospitals and clinics.

### 3 Educate on Patient 360 (P360)

Click on the patient's name in InNote to access P360. P360 includes **CMH acute visit notes** and additional data on **lab results, immunizations, dispensed medications, and more!**

## Reminder! Annual CMHN Clinical Integration Education Module

#### Target Launch Date: October 24

- All Physicians and Advanced Practitioners must complete to earn CMHN engagement points
- Featured Content
  - Overview of Network & Current State of Value Based Contracts
  - Social Determinants of Health Strategic & Operational Update
  - Community Based Organization (CBO) Partnerships
  - Lift Up KC Integration within Innovaccer InNote
  - Ongoing Education & Communication Learnings

## Goldiloks PRISM Study Information

- Children's Mercy Hospital and Mayo Clinic researchers are conducting a new study for teens ages 12-18 with depression – the **GOLDILOKS PRISM Study** (Prediction of Response in SSRI-managed Major Depressive Disorder in Adolescents).
- Participants must be:
  - Between 12-18 years old
  - Diagnosed with depression, and
  - Prescribed, but not yet started, fluoxetine
- Providers can refer eligible patients via a website, contact the study team directly by phone or email, or give the patient and family a recruitment flyer.
- [Click here](#) to read more about this study or [click here](#) to view an informational video.
