

# How to use a spacer with an inhaler

## Spacer with mask

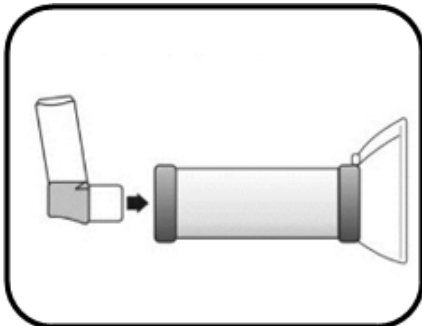

Use a spacer with the inhaler. More medicine will go into the lungs.

7. Sit with your child in your lap

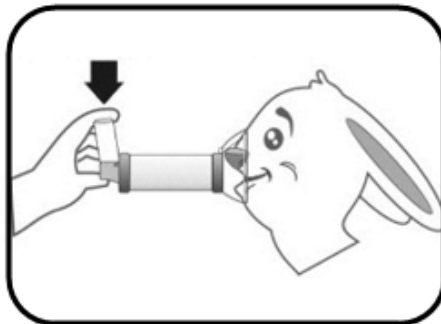

8. Shake the inhaler

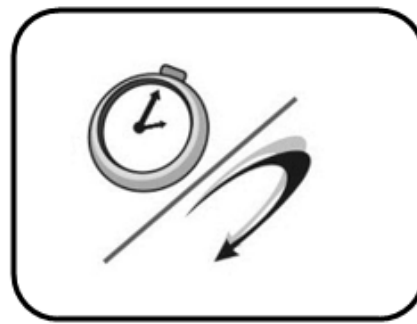

9. Remove cap from the inhaler.  
Place inhaler into spacer.

10. Seal the mask over the nose  
and mouth.

11. Push down on the inhaler  
release 1 puff into the spacer

12. Hold mask on face for 5-10  
breaths. Remove mask from  
face. Wait about 30 seconds.  
Repeat steps 1-6 for each  
puff.
