CHN's 2018 Clinical Integration Education Webinar is Now Available – Required Training for All Providers

[Click to view the Step-by-Step Guide](#) on how to access and complete the annual Children's Health Network Clinical Integration Training webinar. Simply login to the portal and click the "Click here" link (circled below) to complete the training.

The CHN Clinical Integration Education module is a brief webinar on the national shift in how healthcare is being financed and delivered – from a fee-for-service model that promotes volume of services to a value-based model that promotes keeping children healthy. Specifically, the webinar will help you understand what value based care means, how it impacts care delivery, and how you can help your practice transition & succeed within a new value based model.

All staff are welcome to view the educational webinar but only physicians and advanced practitioners are required to complete the brief 15-minute webinar.
